## Get Your Kicks...

Located along Historic Route 66 in Santa Rosa, New Mexico, this ±5,611 SF motel features 17 guest rooms. The property offers excellent visibility and easy access from I-40, attracting both travelers and long-term guests, including construction and wind-energy workers. With upgraded systems, strong traffic exposure, and the business available separately, this is an ideal opportunity for an owner-operator or investor seeking a well-maintained hospitality asset on the iconic Route 66.

### Building & Systems Overview

The property features a combination of adobe and cinder block construction, reflecting its historic Route 66 character while maintaining lasting durability. The main electrical service has been upgraded within the last seven years and includes three panels with 120/240 volts, single-phase power, supporting modern usage and guest amenities. The plumbing system is in excellent condition, with multiple cleanouts and service access points located along the west side of the building. The property is served by two propane water heaters, ensuring reliable hot water capacity for guest operations. Roofs include both propanol (on the original adobe structure) and shingle (on the cinder block addition), providing a well-maintained and functional blend of old and new construction.
